

The Cypress University Alliance Cordially Invites You to Attend A PSoC™ Workshop

WHY:

- Learn all about Cypress PSoC technology. A family of mixed signal (analog, digital, and embedded MCU), programmable devices. PSoC is truly the world's first Programmable System-On-Chip (more info. @ www.cypress.com)
- Leave with the knowledge of PSoC Architecture and PSoC Creator Software and a free Development Kit.

WHO SHOULD ATTEND?

Faculty and Students and Professionals involved in senior project, digital, analog and embedded classes and design; as well as topics as diverse as robotics, mechatronics, industrial controls, and aeronautics.

WHEN: July 9, 2013 2:00 PM to 6:00 PM

WHERE: Hans-Busch Institute (S3|06), Merckstr. 25 D-64283 Darmstadt Room 348

AGENDA: PSoC 4 Architecture Overview, PSoC Creator SW and Dev Kit demos, Hands On Labs.

REGISTRATION: <http://www.surveymonkey.com/s/Z8KD8JZ>
